VECOPLAN MIDWEST

# CONTAINERIZED PELLET PLANT LINEUP

# YOUR CONTAINED PELLETING SOLUTION

## VECOPLAN MIDWEST

Vecoplan Midwest, LLC has developed an entirely self-contained pellet plant that is compact, clean and affordable.

- 7 different models with Throughput ranging from 1,000 lbs. per hour to 12 ton per hour
- 2-8 hour set up time (depending on model)
- Adapts easily to most existing trailer loadout systems
- Alleviates the need for expensive buildings

## VECOPLAN MIDWEST CPP

The Vecoplan Midwest CPP can be available standard with manual weigh scale bagging, bulk loadout, and tote sack loading.

Additional add-on options include: large raw material surge capacity, hammer milling, and an on-site office.

## VECOPLAN MIDWEST DESIGN

The CPP is designed, built and shipped complete with controls from our New Albany, IN location.

The customer provides a flat concrete surface for desired size of CPP and an electrical feed to the main panel.
